December 4, 1975

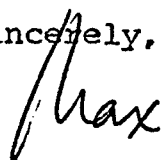

Dear Philip,

I have now had a chance to digest the material you sent along to me. At first telling, the concept you developed made a profound impression on me. I must say that after thinking about it, I feel even more strongly that you have a tremendous thought in your proposal. Everything possible must be done to push this. I will be here from Wednesday, December 10, on and I suggest that you and I get together sometime soon if you feel there is any way I can help.

Keep up the good work.

With warm regard,

Sincerely,

MMR:jgd
